Mexicano

Based in the hinterland behind the Gold Coast, *Mexicano* is fast becoming a favourite for the lovers of Latin/ Rock and those who just enjoy style and tastefully played World music.

Stylized mainly on the Santana style guitar playing of Jackie and supported by a Latin voice that can belt it out or croon those Latin numbers that will have you on your feet and dancing....mambo.

The Percussion section enhances the Latin feel with a visual and rhythmic component that is an audience pleaser.

To support this Duo Jackie has created backing tracks that best reflect his musical arrangement abilities and demonstrate his understanding of Mexico's many musical styles and current trends.
